

Tips for Using Your Own LOGO or SEAL as a Perfect WaterMark for your Certificates of Origin

Type of File or Artwork:

The easiest way to send us your Logo is as a PDF file. If you're not sure how to do this, call us at toll free 888-292-8376 and we'll walk you through the process.

You can also send us a TIFF or EPS file. A Microsoft Word file will also work.

Or you can send us an Illustrator file. Save the file as Version 10 or lower. We can help you with this. Just call.

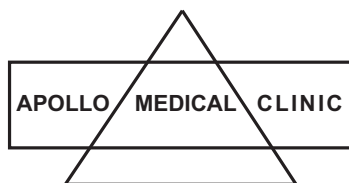

Do NOT send us a JPEG because that is a low resolution file and will not make for a Perfect WaterMark.

If you SCAN your logo, make sure your dpi is as high as possible. 400 to 600 dpi works best.

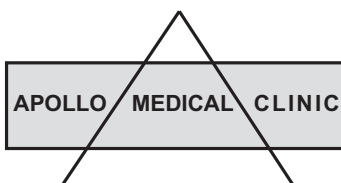

IF YOU DON'T KNOW WHAT WE'RE TALKING ABOUT, just call us and we'll help you out.
Don't worry. We don't expect you to be the expert in this area....that's OUR job.

The COLOR of Your Logo:

We need a Black and White LINE Drawing of your logo. SCREENED or COLORED Logos don't work. Here's what happens:

The PERFECT WaterMark.
No shading, No colors.

Your Logo with shading or in
ANY color other than black.
